Sir,

With reference to your memo No 13 L 3 357/43-44 dated 10th February 44 returning the draft water supply bye-laws with certain observations, I have the honour to submit as follows -

These are the water supply rules for the control, supply and distribution of water in this town A general water tax of annas four per rupee is being levied in this municipality since 1938 with due sanction of Government in their order No L 3032-II 73-37-52 dated 13-1-1938 after observing all the formalities under section 61 (1) d and 66 b and Rule 2 Charter II of Taxation Rules, and a copy of G O is herein enclosed for kind reference It is seen from the G O that the Government have directed to advise the municipal council to take special action to levy house connection fees to enable it to pay off the maintenance charges Hence I think that there is no need to observe the formalities in accordance with Rule 2 Chapter II of Taxation rules

The water supply rules for the control, supply and distribution of water in this town are submitted for favour of obtaining the Government sanction as per section 105 (2) f of the Mysore Municipalities Act

PD 402 43-44

The similar water supply rules published in Mysore Gazette duly sanctioned by the Government in respect of Honnavar and Kalasa Minor Municipalities are herein enclosed for kind reference

LOCAL SELF GOVERNMENT SECRETARIAT

Notifies the Rules for regulating the supply and distribution of water in Konanur Town

READ—

Correspondence ending with letter No C 331—37 dated 20th October 1937 from the Deputy Commissioner Hassan District requesting sanction to the draft rules framed by the Konanur Minor Municipal Council for regulating the supply and distribution of water in Konanur Town

2 Correspondence ending with the Un official Note No 841 4 dated 7th December 1937 from the Director of Public Health on the above subject

ORDER No L 5524 26—ML 63 36 100, DATED BANGALORE, THE 22ND DECEMBER 1937

Under Section 106 (2) (i) and (3) of the Minor Municipalities Regulation, 1933, Government are pleased to issue the accompanying rules for the control, supply and distribution of water within the limits of the Konanur Minor Municipality

P H KRISHNA RAO,
Secretary to Government,
Local Self Government Department

ANNEXURE

Water Supply Rules for the Control, Supply and Distribution of Water in the Konanur Minor Municipality

1 No person shall—

(*a*) remove, break, injure or open any cock, lock, valve pipe work or engine belonging to, or under the control of, the Municipality in connection with the water supply, or

(*b*) flush or draw off any water in or derived from any such water work or do any act whereby the water in any pipe or water work is likely to be wasted or contaminated, or

(*c*) obstruct, divert or in any way injure or alter any water main, sub main or duct

2 The water supplied by the Municipal Council is intended primarily for domestic use and therefore water from a public standpost or tap shall not be taken for garden irrigation, building purposes or for other non domestic purposes In the latter case, the previous sanction of the President or Vice President should be obtained in writing or such payment and under such conditions as may be settled by the Municipal Council, provided that the use of water from the public taps for non domestic purposes mentioned therein shall not be permitted unless there is sufficient supply of water at the tank or source

3 No person shall bathe or wash an animal, vehicle, cloths or utensils at any public standposts or taps, which are not specially set apart for such purposes

4 No person shall do anything to damage or disfigure the standposts or platform or to obstruct the free flow and water from the platform

5 No person shall water any animal at any public stand pipe or cistern, except at places prescribed by the Municipal Council for the purpose by notice posted thereat

6 In cases of emergency, the President or Vice President or his authorised agent may at any time with the previous public notice by beat of *tom tom* and the like, stop the supply of water if it appears to be unfit for use by the public

7 The President, Vice President or their authorised agent in writing sha have power to stop or reduce the supply in any public main or sub main for repairs or renewals without any notice But when such stoppage is over an extensive area, or lasts longer, or is due to exigencies which can be foreseen, such previous notice as is possible under the circumstances will be given by general *tom tom*

8 Applications for house connections from the public mains or sub mains are to be made in the prescribed form with the necessary plans and estimates pre pared by the licensed plumber to the President or Vice-President, who in consul tation with the Bureau of Sanitary Engineering, is authorised to comply with such requisitions by owners of property, who are required to lodge with him or his agent the cost of attachment, *viz*, (1) ½′ attachment Re 1 0 0, (2) ¾″ attachment Rs 1 8 0 After the house connection estimate is sanctioned the rest of the transaction will be entirely between the owner and plumber and the Municipality will not interfere in the matter of settlement of claims, etc, between the owner and plumber

9 Private house service connections will be limited to houses paying house or shop tax of not less than Rs 3 a year in localities where a supply can be given without detriment to street service, provided that there are facilities to make proper arrangements for draining off the waste water to the Municipal drains

10 The number of taps to be given in any dwelling house will be limited to a maximum of three For house taking ½′ connection, a monthly fee of Re 1 and Rs 2 for ¾′ will be charged Non domestic connections will be charged for all water drawn at Re 1 for 1,000 gallons

11 The Municipal Council, in consultation with the Water Works Department, may give connections to factories, firms and railways or for any other non domestic purposes of the entire cost if the pipe-line is borne by such factories, firms and railways provided such water connection does not interfere with the normal supply of water required for Municipal area The cost of the meter will be borne by the Municipality and it will be their property The cost of fixing the meter in a specially constructed meter cistern provided with iron door and locking arrangement will however be borne by the factory, firm, etc The meter will be fixed in the cistern by the Municipality and will be under lock and key and in the custody of the Municipality

12 For every connection given for non domestic purposes, such as garden, factory, press, etc, there shall be provided at the consumer s cost and maintained in due working order, a water meter for gauging the water consumed The word 'garden' here does not include garden in the compound of dwelling

13 For all connections where a water meter is fixed, a charge of four annas per month shall be levied as the rent for the meter, in addition to whatsoever charge that may be due for the water consumed, provided that for the period when the meter is out of order no rent shall be charged

14 If the owners or occupiers of such houses or property vacate or abandon such houses or property either temporarily or permanently, the responsi bility of informing in writing to the President or Vice President shall rest upon such owners or occupiers before the 5th of every month signifying their intention not to use the water till they re occupy the house or property, and upon such appli cation, the President or Vice President shall arrange to cut off the water connection In the case of houses or property remaining temporarily vacant for more than a month and a half, the usual meter rate will be charged, but in the case of such temporary vacancy for a month, no reduction shall be made nor refunded

15 Service pipes to private properties shall be laid by plumbers duly licensed by the Municipal Council on approved plans and estimates and specifications under conditions and rules sanctioned by the Municipal Council

The final connections between the private service pipes and the public water-mains shall not be allowed until the work is inspected and passed by the President or Vice President or his authorised agent

(*a*) No alteration or extension or private connections shall be allowed with out previously obtaining the sanction of the President and such works shall be carried out only by licensed plumbers

(*b*) Repairs may however be carried out by the owners or occupiers of property after giving intimation to the President or Vice President in writing of the nature of the repairs to be done, the work being entrusted to the licensed plumbers only

16 The water rate and meter rent or any other charges due under these rules shall be collected or caused to be collected by the President, Vice President or their authorised agents every month in advance from the owners or occupiers of such houses or such properties The owners or occupiers of such houses or properties shall be solely responsible for the payments of all charges or rate and all such dues under these rules shall be collected as a Municipal Demand and shall be subject to the same conditions as are provided in the Minor Municipalities Regulation, 1933, and the rules framed thereunder provided that the bill shall be served or presented to the owners or occupiers liable to such water rate or meter rent or other charges only once and for the first time of the Municipal Council shall not be bound to serve such bills at the beginning of every month unless there be an alteration or enhancement or reduction as the case may be, in which case a separate bill shall be presented or served

(*a*) The Municipal Council may receive payment from the agent or occupier or owner

(*b*) In order to facilitate the adjustment of accounts between the owner of a house or property and his tenant or occupier, the President or Vice President shall, when required, in writing furnish a memorandum showing the consumption and the prooable charges on account of water rate and meter rent for any broken period of the month since the preparation of the last bill in his office

17 Arrangement will be made to read the meter as far as possible within the 5th of every month The meter reader will leave, with any available person in the house, a slip showing the consumption of water during the preceding month

In calculating the charges under the clause of metering, the quantity of 500 gallons and below shall not be charged, but when it is over 500 gallons, it shall be charged as if it were 1,000 gallons

18 All complaints regarding the accuracy of the reading or the non receipt of slips referred to in rule 16 *supra* should be made in writing to the President or Vice President within the 10th of the month concerned, after which no complaints will be entertained

19 Any owner or occupier of a house or property having a water connection who may suspect or dispute the accuracy of the measurements indicated by water meter may apply to the President or Vice President and have the meter tested on payment of a fee of rupee one per test If on actual test the quantity registered by the meter exceeds 10 per cent of the correct quantity, the fee will be refunded to the party concerned, otherwise it will be credited to the Municipal Funds

20 The Municipal Council reserves to itself the right to test any meter for its own satisfaction at any time Due notice shall, however, be given to the owner or occupier of the house or property concerned

21 If on examination any meter is found to be out of order and consequently not registering correctly the consumption during the period since the last reading, till the meter is repaired or a new meter is attached, shall be calculated at the average daily consumption of the last registered period during which, in the opinion of the President or Vice President, the meter was registering correctly and the consumption of water was not for any reason abnormal

22 The President, Vice President or their authorised agent may, at all reasonable times and with the permission of the owner or occupier if permission be refused after giving six hours notice, enter any premises in which there is a water connection in order to inspect and examine or repair the same

23 The President, Vice President or their authorised agent shall have the power to cut off connection between the private pipes and the public main in any of the following cases —

(1) In default of payment of water rates and other charges due under the rules on any bill presented within 15 days after the same shall have been demanded in writing or presented

(2) If any house owner or occupier who is supplied with [illegible] shall use or permit the use of water for purposes in violation of the conditions on which the connection is granted, provided that five days' previous notice is given in writing

(3) In cases of leakage of pipes or other defects in the private service likely to cause loss to the Municipality, provided 24 hours notice is previously given

(4) If water is allowed to run to waste after the owner or occupier has been warned against allowing such waste by a printed or a written notice of six hours or such shorter period as the President or Vice President deems fit

(5) In any case of broken pipes or fittings causing loss of water likely to cause damage to property when such written notice as may be possible shall be given

(6) In any case of refusal to allow the President, Vice President or their authorised agent to enter on any land or building for the purposes of inspecting service pipes fittings, etc , after a day's notice

24 The Bye laws 2, 3, 4, 5, 6, 7 and 20 stated above shall apply to public street fountains which have been or may be allowed to be erected at the expense of the private individuals for dedication to public use, and such fountains are subject to the following conditions —

(*a*) that their number is strictly restricted by the *bona fide* public require ments of particular localities which shall be decided by the Municipal Council,

(*b*) that they are not placed closer to any other public fountain than the minimum prescribed distance of 400 feet,

(*c*) that their free and unobstructed use at all hours by the public for the use for which they are intended is duly safeguarded

25 Any person whose house connection is stopped for non payment of dues or leakage, etc , should pay a fee of Re 1 for re connecting the same

26 The Municipality reserves to itself the power whenever it deems fit, to alter or modify the foregoing rules or to abolish altogether the system of house con nection established thereunder or to stop or to reduce the supply to any private attachment or any public fountain without assigning any reason whatsoever

27 Any person infringing any of these Bye laws shall be liable to be punished with a fine not exceeding Rs 50 on conviction before a Magistrate

(*a*) remove break injure or open any cock valve pipe work or engine or motor belonging to or under the control of the Municipality in connection with the water supply or

(*b*) flush or draw off any water in or derived from any such water work or do any ac whereby the water in any pipe or water work is likely to be washed or contaminated or

(*c*) obstruct divert or in any way injure or alter any water main sub main or duct

2 The water supplied by the Municipal Council is intended primarily for domestic purpose, and therefore water from a public standpost or tap shall not be taken for garden, irrigation building purposes or for other non domestic purposes In the latter case, the previous sanction of the President or Vice President should be obtained in writing on such payment and under such conditions as may be settled by the Municipal Council, provided that the use of water from the public taps for non domestic purposes mentioned therein shall not be permitted unless there is sufficient supply of water at the tank or source

("Domestic Purpose' means water used purely for the purpose of bathing, cooking, washing clothes and utensils)

3 No person shall bathe or wash any animal, vehicle, clothes or utensils at any public standpost or taps

4 No person shall do anything to damage or disfigure the standposts or platforms or to obstruct the free flow of water from the platform

5 No person shall water any animal at any public stand pipe or cistern, except at the places prescribed by the Municipal Council for the purpose by notice posted thereat

6 In case of emergency, the President or Vice President or his authorised agent may at any time with previous public notice by beat of *tom tom*, stop the supply of water if it appears to be unfit for use by the public

7 The President, Vice President or their authorised agent in writing shall have power to stop or reduce the supply in any public main or sub main for repairs or renewals by such previous notice as is possible But when such stoppage is over an extensive area or is due to exigencies which can be foreseen, due notice under the circumstances will be given by general *tom tom*

8 Applications for house connections from the public mains or sub mains are to be made in the prescribed form with the necessary plans to the President or Vice President who is authorised by himself to comply with such requisitions by owners of property who are required to lodge with him or his agent the cost of the attachment as specified below —

Half inch attachment	Rs 1 8 0
Three fourths inch attachment	2 0 0

After the house connection estimate is sanctioned, the rest of the transaction will be entirely between the owner and plumber and the Municipality will not interfere in the matter of settlement of claims, etc , between the owner and consumer

9 Private house service connections will be limited to houses paying house or shop tax of *not less than Rs 2 a year* in localities where a supply can be given without detriment to street service, provided there are facilities to make proper arrangements for draining off the waste water to the Municipal drains

10 The number of taps to be given in any dwelling house will be limited to a maximum of three

For houses taking half inch connection, a monthly fee of Rs 1 8 0 and those taking three fourths inch connection Rs 2–0–0 will be charged

Non domestic connections will be charged for all water drawn at eight annas per 1,000 gallons

11 The Municipal Council, in consultation with the Water Works Department may give connection to factories, firms and railways or for any other non domestic purposes if the entire cost of the pipe line is borne by such factory, firm or railway

provided such water connection does not interfere with the normal supply of water required for the Municipal area

12 For every connection given for non domestic purposes such as garden, factories, presses, etc , the responsibility for installing and maintaining the meter will vest in the Municipality

The word 'Garden' does not include the garden in the compound of dwelling houses

13 For all connections where a water meter is fixed by the Municipality, a charge of four annas per month shall be levied as the rent for the meter, in addition to whatsoever charge that may be due for the water consumed, provided that for periods when the meter is out of order no rent shall be charged

14 If the owners or the occupiers of such houses or property vacate or abandon such houses or property either temporarily or permanently, the responsibility to communicate this fact in writing to the President or Vice President shall rest on such owners or occupiers who should signify their intention not to use the water till they re occupy the house or property, and upon such applications, the President or Vice President shall arrange to cut off the water connection In the case of houses or property remaining temporarily vacant for a month or more, meter rate only will be levied and in the case of such temporary vacancy for a portion of a month, no reduction either in water rate or meter hire shall be made or refund of amount granted

15 Service pipes to private properties will as a rule be laid by plumbers duly licensed by the Municipal Council on approved plans and specifications under conditions and rules sanctioned by the Municipal Council

The final connection between the private service pipes and the public water mains shall not be allowed until the work is inspected and passed by the President or Vice President or their authorised agent

(a) No alteration or extension of private connections will as a rule be allowed without previously obtaining the sanction of the Municipal Council and such works shall be carried out only by licensed plumbers

(b) Repairs may however be carried out by the owners or occupiers of property after giving intimation to the President or Vice President in writing of the nature of repairs to be done the work being entrusted to the licensed plumbers only

16 The water rate and meter rent or any water charges due under these rules shall be collected or caused to be collected by the President or Vice President or his authorised agents every month in advance from the owners or occupiers of such property The owners or occupiers of such houses or property shall be solely responsible for the payments of all charges or rate or rent and all such dues under these rules shall be collected as a Municipal Demand and shall be subject to the same rules as are provided in the Municipal Regulation of 1933, provided that the bill shall be served or presented to the owners or occupiers liable to such water rate, meter rent or other charges It is necessary that a bill should be sent every month (The Municipal Council may receive payment from the agent or the occupier)

(a) In order to facilitate the adjustment of accounts between the owner of a house or property and his tenant or occupier the President or Vice President shall when required in writing furnish a memorandum showing the consumption and the probable charges on account of water rate and meter rent for any broken period of the month since the preparation of the last bill in his office

17 Every meter shall be read within the 5th of every month and the meter reading will be duly intimated to the owner of the house The meter reader will leave, with any available person in the house, a slip showing the consumption of water during the preceding month

In calculating the charges under the clause of metering, the quantity of 500 gallons and below shall not be charged, but when it is over 500 gallons, it shall be charged for as if it were 1,000 gallons

18 All complaints regarding the accuracy of the reading or the non receipt of slips referred to in rule 16 should be made in writing to the President or Vice President within the 10th of the month concerned, after which no complaints will be entertained

19 Any owner or occupier of a house or property having a water connection who may suspect or dispute the accuracy of the measurements indicated by water

meter, may apply to the President or Vice President and have the meter tested on payment of a fee of rupee one per test If on actual test the quantity registered by the meter exceeds 10 per cent of the correct quantity, the fee will be refunded to the party concerned, otherwise it will be credited to the Municipal Funds

20 The Municipal Council reserves to itself the right to test any meter for its own satisfaction at any time Due notice shall, however, be given to the owner or occupier of the house or property concerned

21 If on examination any meter is found to be out of order and consequently not registering correctly, the consumption during the period since the last reading, till the meter is repaired or a new meter is attached, shall be calculated at the average daily consumption of the last registered period during which, in the opinion of the President or Vice President, the meter was registering correctly and the consumption of water was not for any reason abnormal

22 The President, Vice President or their authorised agent may, at all reasonable times and with the permission of the owner or occupier if permission be refused after giving six hours' notice, enter any premises in which there is a water connection in order to inspect and examine or repair the same

23 The President, Vice President or their authorised agent shall have the power to cut off connection between the private pipes and the public main in any of the following cases —

(*a*) In default of payment of water rate and other charges cost of repairs of meters due under the rules within five days after the same shall have been demanded in writing or bill presented

(*b*) If any house owner or occupier who is supplied with water shall use or permit the use of water for purposes in violation of the conditions on which the connection is granted provided that five days previous notice is given in writing

(*c*) In cases of leakage of pipes or other defects in the private service likely to cause loss to the Municipality provided 24 hours notice is previously given

(*d*) If water is allowed to run to waste after the owner or occupier has been warned against allowing such waste by written notice of six hours or such shorter period as the President or Vice President deems fit

(*e*) In any case of broken pipes or fittings causing loss of water likely to cause damage to property when such written notice as may be possible shall be given

(*f*) In any case of refusal to allow the President Vice President or their authorised agent to enter on any land or building for the purpose of inspecting service pipes fittings etc after a day s notice

24 The rules 2, 3, 4, 5, 6, 7 and 20 stated above shall apply to public street fountains which have been or may be allowed to be erected at the expense of the private individuals for dedication to public use, and such fountains shall be further subject to the following conditions —

(*a*) That their number is strictly restricted by the *bona fide* public requirements of particular localities which shall be decided by the Municipal Council

(*b*) That they are not installed closer to any other public fountain than the minimum prescribed distance of 200 feet

(*c*) That their free and unobstructed use at all hours by the public for whose use they are intended is duly safeguarded
